Explanation

As per July 4, 2023 the tariff component Fuel Supply Guarantee 1b will be partially reintroduced in the fuel rates due to the partial termination of the pre-financing. In the next 3 months the pre-financing will be phased out resulting in three monthly increases of this component of approximately 2 cents per liter. The decrease of the end user price for Mogas 95 and Gasoil LSD is the result of a substantial decrease in the purchase price as well as in the correction of the Surplus/Deficit component.
