Explanation
The end-user tariffs for Mogas 95 and Gasoil (U)LSD increase compared to the previous month. The increase in the end-user tariff for Mogas 95 is mainly the result of a higher international purchase price. The purchase price of Gasoil (U)LSD remains virtually unchanged compared to the previous month. The increase is mainly due to the surplus/deficit component. The temporary reduction of this component, applied last month to limit the price increase, no longer applies. The deficit resulting from this temporary reduction will be gradually recovered over the coming months.
